

SKILLBUILDERS GROUP PROGRAMME

MASTER BUILDERS

Mini Masterbuilders 5-7 years
Masterbuilders 8-11 years

At Skillbuilders Therapy we facilitate engaging group activities that empower children to develop essential friendship skills, self confidence and a positive view of themselves.

Through hands-on building tasks like Lego construction, children will enhance their social communication skills, learn about teamwork, practice active listening and problem solving while enjoying interactive games.

We support the children and encourage them to support each other to enjoy being their own unique selves! The programme is delivered by therapists experienced in using every teachable moment to support the children's development.
