

SKILLBUILDERS GROUP PROGRAMME

LITTLE LANGUAGE GROUP

For Children Aged 5-6

Designed and run by our Speech Pathologists, the Little Language Group aims to support children's language development in both expression and comprehension through book share and play-based activities.

Groups will target a range of specific language skills including following instructions, vocabulary, sentence structure and narrative skills. This is an ideal group for children to develop their social language skills in a safe and supported small group environment.
